

## A2 Magic's Virtual Magic Workshop

Welcome to A2 Magic's Virtual Magic Workshop. Cut out and prepare these printed materials according to the instructions. Bring these, and the materials listed below to the workshop, and get ready to learn several simply amazing, yet amazingly simple magic tricks that you will truly enjoy showing to family and friends.

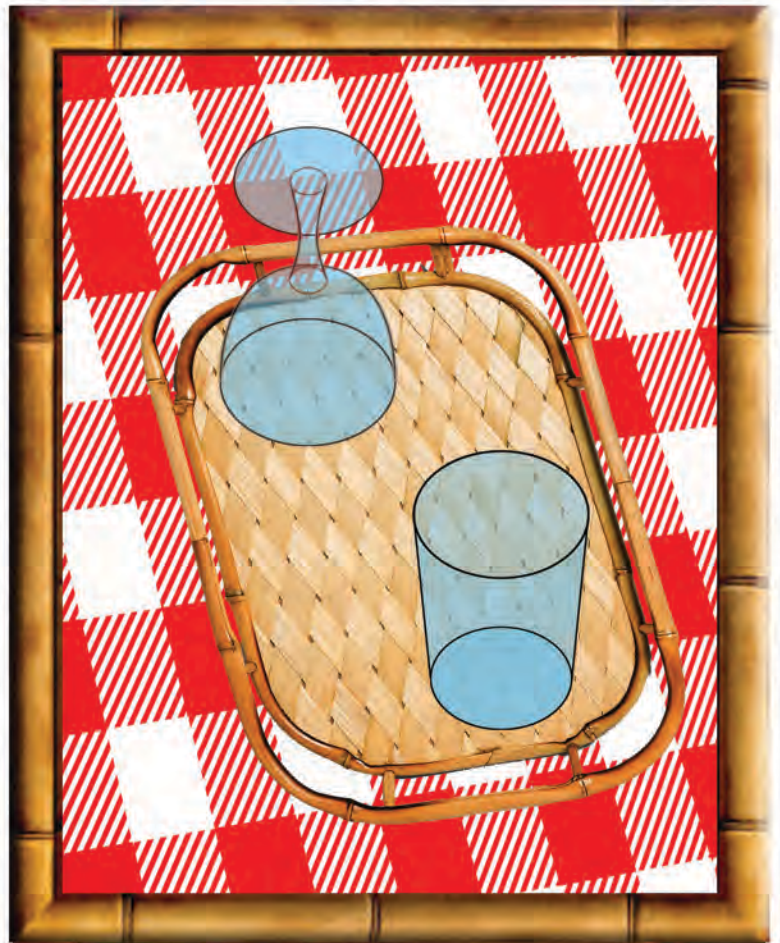

In addition to these printed pieces, please gather the following items from around the house.

**Crayons** - 6-8 colors, **Dollar Bill** - real or fake, **Pencil**, "Zip style" sandwich bag, **Scissors**, **Deck of Cards** - bridge size, if possible, **Penny**, **Nickel**, **Dime**, and **Quarter**.

# WANDerful Revelation

In this effect, a folded magic wand will be used to reveal a secret message. Print, cut and fold the special magic wands included on this page according to the instructions below. Only one wand is needed, the second is an extra. Be sure to ask an adult for help if you need assistance. We will work on the handling and presentation of this neat little trick in the upcoming magic workshop.

Before proceeding, make sure that page 2 of these instructions is printed on the reverse side of this sheet. Side 2 consists of two black rectangles which will create the look of a flattened magic wand, once the cutouts are properly folded. Insert this page into your printer so that the wands will be printed on the opposite side of the cutouts shown below.

1. Cut along the dashed lines on the lower half of this page to create two foldable pieces.
2. Using the markings on each side of your sheet as a guide (points A, B, C and D) figure 1, carefully fold through the center of each of the four rows of Asian-style characters, as shown in figure 2.
3. If you fold line A down to meet Line C, figure 3, you will see the words **King of Diamonds**.
4. If you fold Line D up to meet Line B, figure 4, you will see the words **Applause Please**.
